How will this proposal address ICSU's strategic priorities as defined for the grants programme? (max. 10 lines):

⁰ (ICSU Scientific Unions)

Project plan (max 3 pages)

State clearly the objectives of the project and the beneficiaries. Elaborate on its relevance to the review criteria – e.g., innovative nature, interdisciplinary and international nature, visible and measurable outputs, relevance to the programme priorities and priorities of ICSU Regional Offices. If the activity targets young scientists, women scientists, and/or scientists from developing countries – please refer to it here. [N.B. ICSU will not normally support travel grants to attend standard scientific meetings and conferences, nor support fellowship programmes.]

- Objectives (1/3 page)
- Project description (2 pages)
- Relevance to review criteria 1/3 page)
- Targeting of priority groups (1/3 page)

Work plan (max 1 page)

Specify time schedule, major events, methodologies to be used, leadership and management structure, and key milestones in the implementation process, etc.

Expected results (max 1/2 page)

What outcomes are expected from the project: publications (including audience and dissemination plan), new programme initiatives, etc? Explain how an ICSU grant can strengthen your own overall programme of work, e.g., leveraging funds from other sources, enhancing visibility, enhancing impact or role of your organisation. Assess potential follow-on action that may result from the activity.

The Role of Supporting Applicants and Other collaborative partners (max 1/2 page per partner)

The role of each supporting applicant (minimum one from the ICSU family) (and other partner organizations such as UN agencies, if relevant), should be clearly described.
