Part A. Curriculum Vitae

I. Personal

Place of Birth: Piešťany, Slovakia
Date of Birth: January 17, 1966
Marital Status: Married
Children: A Son (born 2007)

II. University Education and Additional Training

- 1984–1989 M. Sc. in General Biology at the Department of Zoology, Faculty of Natural Sciences, Comenius University, Bratislava, Slovakia.
Thesis title: Population dynamics of biting midges of the genus *Culicoides* (Diptera, Ceratopogonidae) in Slovakia.
- 1997–2001 Ph.D. in Zoology at the at the Department of Zoology, Faculty of Natural Sciences, Comenius University, Bratislava, Slovakia.
Thesis title: Mites of the cohort Uropodina (Acari, Mesostigmata) in Slovakia
- 2010–2011 Research fellowships sponsored by the Leverhulme Trust at School of Biological Sciences, Bangor University, Bangor, Wales, United Kingdom
Research topics: Forensic Acarology.

III. Positions Held and Academic Status

- 1990–1991 Postdoctoral Fellow, Institute of Zoology, Slovak Academy of Sciences, Bratislava, Slovakia
- 1991–2001 Scientific Assistant, Institute of Zoology, Slovak Academy of Sciences, Bratislava, Slovakia
- 2001–present Independent Scientist, Institute of Zoology, Slovak Academy of Sciences, Bratislava, Slovakia

IV. Research Topics

Acarology: all areas of the systematics and biology of mesostigmatic mites, especially taxonomic and ecological research on diverse families of Palaearctic Mesostigmata, especially including free-living soil mites, parasitic mites associated with small

mammals and birds, and phoretic mites associated with coprophilous and necrophilous arthropods. An acarologist focused on many tasks of mesostigmatic mite research concerning morphology, taxonomy, ecology, zoogeography, pedobiology, parasitology etc.

V. Research Grants

Leadership of the following grant projects funded by the Slovak Grant Agency VEGA:

- 2002–2004 Project No. 2/2012/22. Title: Mites of the family Zerconidae (Acarina, Mesostigmata) in Slovakia.
- 2005–2007 Project No. 2/5008/27. Title: Mites of the families Ameroseiidae, Epicriidae, Eviphididae, Pachylaelapidae and Veigaiaidae (Acari, Mesostigmata) in Slovakia, with consideration on taxonomy, ecology and chorology of individual species.
- 2008–2010 Project No. 2/0054/08. Title: Dermanyssoid mites (Acari, Mesostigmata) associated with small mammals (Micromammalia) in Slovakia, with consideration on taxonomy, ecology and chorology of individual species.
- 2011–2013 Project No. 2/0012/11. Title: Dermanyssoid mites (Acari, Mesostigmata) associated with birds and their nests (Aves) in Slovakia, with consideration on taxonomy, ecology and chorology of individual species.
- 2014–2017 Project No. 2/0091/14. Title: Arboricolous mites (Acari: Mesostigmata) associated with wood-destroying insects and fungi in Slovakia, with consideration on taxonomy, ecology and chorology of individual species.
