h-index 13

Date of birth: 25/08/1987 | Nationality: Ukrainian

Affiliation and official address Centre for Advanced Materials Application Slovak Academy of Sciences (**CEMEA SAS**), Dúbravská st. 5807/9, 845 11 Bratislava, Slovak Republic; Institute of Inorganic Chemistry Slovak Academy of Sciences (**IIC SAS**), Dúbravská st. 9, 845 36 Bratislava 45, Slovak Republic.

Scientific interests: Main fields: electrochemistry; physical chemistry; colloidal chemistry; and technologies related to the development of catalytic, functional, and/or bio-inspired materials.
Specific fields: investigation of kinetics and mechanisms of electrochemical processes using liner and cyclic voltammetry, electrochemical impedance spectroscopy; electrodeposition of Cr, Ni, their alloys and composites; corrosion and corrosion protection of metals; “green” electropolishing; utilization of ionic liquids (deep eutectic solvents); electrochemical production of hydrogen from water-based electrolytes; electrochemical surface treatment of bio-medical metals and alloys.

Education

- 20/06/2019** Assignment of the scientific title of associate professor (Assoc. Prof.) by the Ministry of Education and Science of Ukraine (Department of Physical Chemistry. Ukrainian State University of Chemical Technology. Dnipro, Ukraine).
- 25/04/2013** Candidate of science (CSc., PhD equivalent), Electrochemistry, Ukrainian State University of Chemical Technology (Dnipro, Ukraine).
- 30/06/2009** Magister, Chemistry, Oles Honchar Dnipro National University (Dnipro, Ukraine).
- 30/06/2008** Bachelor, Chemistry, Oles Honchar Dnipro National University (Dnipro, Ukraine).

Membership in scientific communities

Since **2011** year a member of the International Society of Electrochemistry (ISE).

Since **2022** year a member of the Royal Society of Chemistry.

Participation in international experience exchange programs

15/04/2018 – 15/06/2018 Working period in Institute of Inorganic Chemistry, Slovak Academy of Sciences supported by the National Scholarship Program (NSP) of the Slovak Republic.

01/09/2019 – 30/04/2020 Cooperation work with the Institute of Inorganic Chemistry, Institute of Physics, and Institute of Molecular Biology of the Slovak Academy of Sciences supported by the National Scholarship Program of the Slovak Republic.

Current positions

- Since 15/12/2022 to the present** Independent Researcher in the Centre of Excellence for Advanced Materials Application Slovak Academy of Sciences (CEMEA SAS. Bratislava, Slovak Republic).
- Since 1/05/2020 to the 15/12/2022** Researcher in the Centre of Excellence for Advanced Materials Application Slovak Academy of Sciences (CEMEA SAS. Bratislava, Slovak Republic).
- Since 1/11/2021 to the present** Researcher in the Ceramic Department of the Institute of Inorganic Chemistry Slovak Academy of Sciences (IIC SAS. Bratislava, Slovak Republic).

Previous positions

- 2019 – 2020** Leading Scientific Specialist of the Research Institute of Galvanochemistry (Dnipro, Ukraine).
- 2016 – 2019** Senior researcher of the Research Institute of Galvanochemistry (Dnipro, Ukraine).
- 2014 – 2016** Research assistant of the Research Institute of Galvanochemistry (Dnipro, Ukraine).
- 2012 – 2014** Junior researcher of the Research Institute of Galvanochemistry (Dnipro, Ukraine).
- 2010 – 2012** Engineer chemist of the Research Institute of Galvanochemistry (Dnipro, Ukraine).

Fellowships and awards

- 2023** Top three finalists in the competition “Technology Transfer in Slovak Republic 2023” in category “innovator”.
- 2022** Finalist in the competition of research projects IMPULZ, Slovak Academy of Sciences.
- 2020** Participant of the competition of Marie Skłodowska-Curie Individual Fellowships, Horizon 2020 - Research and Innovation Framework Programme (NGETMA project with evaluation result: 71.00% from 100%).
- 2019-2020** The winner of the National scholarship program of the Slovak Republic, Institute of Inorganic Chemistry, Slovak Academy of Sciences.
- 2018 – 2020** The winner of the scholarship of the Cabinet of Ministers of Ukraine 2018 - 2020.
- 2019** Finalist in the start-up competition “InnoDnipro 2019” with a project “Highly efficient processing of metals and alloys in environmentally friendly electrolytes of a new generation” (Dnipro, Ukraine).
- 2018** The winner of the competition for young scientists with funding from the Ministry of Education and Science of Ukraine (22/12/2018).
- 15/04/2018 – 15/06/2018** National scholarship program of the Slovak Republic, Institute of Inorganic Chemistry, Slovak Academy of Sciences.
- 28/09/2018** Diploma of the Department of Education and Science of the Dnipro Regional State Administration for significant success in research and teaching activities.

- 2016** Certificate of honour for high performance in work, Ukrainian State University of Chemical Technology (Dnipro, Ukraine).
- 2016** Diploma of the winner in the competition of the best teacher of 2016 year in the Ukrainian State University of Chemical Technology (Dnipro, Ukraine).

Scientific projects

- **Key researcher** in the project APVV - 20-0322 "Nanostructured, functionally graded, and bioinspired 3D Ti-based implants", Slovak Republic, 2021-2025.
- **Senior researcher** in the project Building-up Centre for advanced materials application of the Slovak Academy of Sciences, ITMS project code 313021T081 supported by Research & Innovation Operational Programme funded by the ERDF, 2020-2023.
- **Leader (supervisor) of the project** № 0119U002001 "Highly effective anodic treatment of bio-resistant alloys for the medical application using eco-friendly ionic liquids of the new generation" financed by the Ministry of Education and Science of Ukraine, 2019-2021.
- **Senior researcher** in the project "Fundamental principles of electrode processes of precipitation and treatment of metals in electrolytes based on deep eutectic solvents" financed by the Ministry of Education and Science of Ukraine, 2018.
- **Leader (supervisor) of the project** № 0116U006897 "Electrochemical corrosion and protection against corrosion of a series of construction steels in new types of ionic liquids" financed by the Ministry of Education and Science of Ukraine, 2016-2018.
- **Senior researcher** in the project "Electrochemical synthesis of multicomponent nano-structured coatings: New procedures and plating baths, electrode kinetics, properties, and application prospects" financed by the Ministry of Education and Science of Ukraine, 2015-2017.
- **Senior researcher** in the project "Complex composite catalysts in flow systems for application in zones of local conflicts" financed by the Ministry of Education and Science of Ukraine, 2016-2018.

Teaching activities

- 2012 – 2020** Teacher of Physical and Colloidal Chemistry, Department of Physical Chemistry in Ukrainian State University of Chemical Technology (Dnipro, Ukraine).
- 2012 – 2020** Teacher of chemistry in the "School of Young Chemists" in Ukrainian State University of Chemical Technology (Dnipro, Ukraine).

Organisation of scientific meetings

- 2013 – 2020** Member of the collective of organizers of Olympiads for students and scholars in the field of chemistry; scientific symposia, and congresses (Ukrainian State University of Chemical Technology, Dnipro, Ukraine).

Institutional responsibilities

- 2015 – 2020** Responsible person for distance education at the Department of Physical Chemistry (Ukrainian State University of Chemical Technology, Dnipro, Ukraine).
- 2018 – 2020** Organizer of the regional and international seminars and meetings (Ukrainian State University of Chemical Technology, Dnipro, Ukraine).

Reviewing activities

- 2023** Guest reviewer of Journals: Materials Today Communications (CiteScore: 4.1, Impact Factor: 3.8), Journal of Molecular Liquids (CiteScore: 9.7,

| | |
|--------------------|--|
| | Impact Factor: 6.0), Journal of Electroanalytical Chemistry (CiteScore: 7.5, Impact Factor: 4.5). |
| 2022 | Guest reviewer of the Journal of Molecular Liquids (CiteScore: 9.7, Impact Factor: 6.0). |
| 2022 | Guest reviewer of the Journal of Electroanalytical Chemistry (CiteScore: 7.5, Impact Factor: 4.5). |
| 2018 | Guest reviewer of the Journal of the Taiwan Institute of Chemical Engineers (CiteScore: 9.6, Impact Factor: 5.7). |
| 2015 – 2020 | Guest reviewer of the Journal “Issues of Chemistry and Chemical Technology” (ISSN: 0321-4095E-ISSN:2413-7987. CiteScore: 1.1). |

Major collaborations

| | |
|--------------------|--|
| 1/01/2018 | Miroslav Boca, “Electrochemical study of non-aqueous systems”, department of molten systems, Institute of Inorganic Chemistry (IIC) Slovak Academy of Sciences, Bratislava, Slovak Republic (Collaboration agreement between the home university and IIC SAS is available and valid to the present moment). |
| – | |
| 31/12/2022 | |
| 1/05/2020 | Eva Majkova, Miroslav Hnatko, “Development of multifunctional materials for various purposes”, Centre of Excellence for Advanced Materials Application (CEMEA) Slovak Academy of Sciences, Bratislava, Slovak Republic (Collaboration agreement between the home university and CEMEA SAS is available and valid to the present moment). |
| – up to now | |

Language skills

- English (speak and read, B2 Upper Intermediate – EF SET Certificate).
- Russian and Ukrainian native.
- Slovak a confident user.

Certificates

- EF SET Certificate (B2 Upper Intermediate English).
- Researcher Academy ELSEVIER Certificate of Completion “Successful research grant applications – getting it right”.
- Researcher Academy ELSEVIER Certificate of Completion “Funding Hacks for Researchers”.
- Researcher Academy ELSEVIER Certificate of Completion “Discover how metrics can boost funding and networking opportunities”.
- Researcher Academy ELSEVIER Certificate of Excellence “Funding”.
- Researcher Academy ELSEVIER Certificate of Completion “Creating a good research data management plan”.
- European Academy of Sciences and Research “On being scientist course”.
- European Academy of Sciences and Research “Research design: Inquiry and discovery course”.

Patents and patent applications

- ✚ **UA patent** entitled “Electropolishing of stainless steel in an electrolyte based on deep eutectic solvent Ethaline” with identification number UA 150890 U was published 5.05.2022.
- ✚ **European patent application** entitled "Method for electrochemical surface treatment of biomedical products made of titanium or Ti-based alloys" was registered under the number 22193733.7 (2.09.2022).
- ✚ **European patent application** entitled "A method for electrochemical surface treatment of biomedical products made of titanium or Ti-based alloys" was registered under the number 22204696.3 (31.10.2022).

 International patent application entitled “A method for electrochemical surface treatment of biomedical products made of titanium or Ti-based alloys” was registered under the number PCT/SK2023/050006 (12.04.2023).

LIST OF PUBLICATIONS

Authorship of books

1. **Kityk A.A.**, Protsenko V.S., Danilov F.I. Temperature responses in linear voltammetry. Voltammetry: Theory, Types and Applications. – New York: Nova Science Publishers Inc., 2014. – P.318-336 (ISBN: 978-1-62948-058-9).
2. Bobrova L.S., Shaiderov D.A., **Kityk A.A.**, Protsenko V.S., Danilov F.I. Effect of water addition on physicochemical properties of electrochemical systems based on deep eutectic solvents. Promising materials and processes in technical electrochemistry. Monograph. – Kyiv : KNUTD, 2016. – P. 204. (ISBN 978-966-7972-61-5).
3. Protsenko V.S., **Kityk A.A.**, Bobrova L.S., Shaiderov D.A., Danilov F.I. Physicochemical and electrochemical properties of deep eutectic solvents containing dissolved Ni(II) and Cr(III) salts: The effects of water content. Ionic Liquids: Electrochemistry, Uses and Challenges (2017). – New York: Nova Science Publishers Inc., 2017. – P. 1-34. (ISBN 978-1-53612-689-1, e-ISBN 978-1-53612-690-7).
4. **Kityk A.A.**, Rublova Y.D., Bannyk N.G., Protsenko V.S., Danilov F.I. Voltammetric study of corrosion of mild steel in deep eutectic solvents. Promising materials and processes in applied electrochemistry. Monograph. – Kyiv : KNUTD, 2017. – P. 135-142. (ISBN 978-966-7972-61-5).
5. Protsenko V.S., **Kityk A.A.**, Vasil'eva E.A., Tsurkan A.V., Danilov F.I. Electrodeposition of Composite Coatings as a Method for Immobilizing TiO₂ Photocatalyst. Part of the Environmental Chemistry for a Sustainable World. Book series ECSW. – Vol. 29. Nanophotocatalysis and Environmental Applications. – 2019. – P. 263-301.
6. **A.A. Kityk**, N.G. Bannik, O.V. Kyn. High-efficient anodic treatment of stainless steel AISI 304 for medical purpose in deep eutectic solvent Ethaline. Promising materials and processes in applied electrochemistry. Monograph. – Kyiv : KNUTD, 2019. – P. 239-245. (ISBN 978-617-7506-48-4).
7. Protsenko V., **Kityk A.**, Danolov F., Pavlik V., Boča M. Chapter 2: Electropolishing of metals and alloys using electrochemical systems based on environmentally safe deep eutectic solvents. Environmentally Friendly Technologies: Advances in Research and Future Directions (2020). – New York: Nova Science Publishers Inc., 2020. – P. 101-133.
