Zubrzycka M. 75

## SUBJECT INDEX

### ADRENAL CORTEX

stress response at adrenocortical level ..... 35  
 adrenal androgens in menopause, review ..... 95  
 corticosterone and hippocampal serotonin reuptake ... 119  
 angiotensin and adrenocortical cell proliferation ..... 139

### ADRENAL MEDULLA

adrenomedullary response to mild core hypothermia in  
 humans ..... 3

### ADRENAL TUMORS

tumor markers (VEGF, MMP and TIMP) in humans ..... 9

### AIDS

case report: ACTH stimulation test ..... 91

### ANDROGENS

dehydroepiandrosterone sulfate in postmenopausal  
 asthmatic women ..... 217

### ANGIOTENSIN

receptor mRNA changes after stress ..... 65  
 and adrenocortical cell proliferation ..... 139

### ATRIAL NATRIURETIC FACTOR

detection in ovarian cells ..... 81

### CARCINOGENESIS

chemically induced, review ..... 53

### CATECHOLAMINES

gene expression of catecholamine synthesizing  
 enzymes after stress ..... 195

### CORTICOSTERONE

ingestion and hippocampal serotonin reuptake ..... 119  
 gene expression of receptor subunit after morphine . 179

### DIABETES

latent autoimmune diabetes in adults and autoimmune thy-  
 roiditis ..... 167  
 insulin resistance and fatty acids in hereditary  
 hypertriglyceridemic rats ..... 179

### FATTY ACIDS

and insulin resistance in hereditary hypertriglyce-  
 ridemic rats ..... 179

### GLUCOSE

turnover rate in hereditary triglyceridemic rats ..... 179

### HYPOTHERMIA

and adrenomedullary response in humans ..... 3

### IMMUNIZATION

design of genetic immunization, review ..... 143

### IGF

in children with idiopathic osteoporosis

### MENOPAUSE

adrenal androgens regulation, review ..... 95  
 circadian dehydroepiandrosterone in postmenopausal  
 asthmatic women ..... 217

### OVARY

detection of atrial natriuretic factor in ovarian cells .... 81  
 porcine follicles and regulated protein ..... 127  
 changes in steroid secretion in vitro after polychlori-  
 nated biphenyls ..... 223

### PHAEOCHROMOCYTOMA

genetic aspects, review ..... 43

### PITUITARY

stress response at pituitary level ..... 35

### RECEPTORS

somatostatin, radioimmunoassay ..... 31  
 angiotensin rec., changes of mRNA in brain after  
 stress ..... 65

### REVIEW

genetic aspects of pheochromocytoma ..... 43  
 chemically induced carcinogenesis ..... 53  
 adrenal androgens in menopause ..... 95  
 Space flight and endocrine regulation in rats ..... 101

genetic immunization design .....	143
autoimmune diabetes and thyroiditis .....	167
microdialysis of blood outflowing from the brain .....	229

### **SHBG**

as marker of hormonal treatment in Turner's syndrome .....	17
--	----

### **SOMATOSTATIN**

radioimmunoassay for receptor .....	31
synthesis of highly potent analogues .....	75

### **SPACE FLIGHT**

effect of on endocrine regulation in rats, review .....	101
---	-----

### **SPERMATOGENESIS**

and ethane dimethanesulfonate treatment .....	209
---	-----

### **STRESS**

differential response to stress in Lewis and Fisher rats .....	35
angiotensin receptor mRNA changes in brain after stress .....	65
stress response at pituitary level .....	35

### **THYROID**

hemithyroidectomy and bromodeoxyuridine incorporation into thyroid DNA .....	25
imprint and frozen section in thyroid surgery strategy .....	71
autoimmune diabetes and thyroiditis, review .....	167

### **TURNER'S SYNDROME**

sex hormone binding protein as marker of hormonal treatment .....	17
---	----
