## SUBJECT INDEX

### ADRENAL CORTEX

circadian cortisol rhythm after sleep deprivation .....	63
hypothalamic-pituitary adrenal axis in rheumatic diseases .....	95
congenital adrenal dysplasia, congenital screening, abstract .....	183
congenital adrenal hypoplasia, salt wasting patients, abstract .....	185

### ADRENAL MEDULLA

catecholamine synthesis in, in CRH knock-out mice .....	107
---	-----

### ANDROGENS

dehydroepiandrosterone and its metabolites in human semen .....	79
hyperandrogenism in girls, metformin treatment, abstract .....	188

### BONE MARROW TRANSPLANTATION

endocrine function in children after, abstract .....	181
--	-----

### CATECHOLAMINES

catecholamine synthesizing enzymes in CRH knock-out mice .....	107
--	-----

### COHEN SYNDROME

and endocrine functions in children, abstract .....	181
---	-----

### CORTICOTROPIN RELEASING HORMONE

CRH knock-out mice and catecholamine synthesis in adrenal medulla .....	107
in rheumatoid disease, minireview .....	95

### CORTISOL

in human semen, review .....	81
in rheumatoid disease, minireview .....	95

### DIABETES

dyslipidemia and insulin resistance in <i>Psammomys obesus</i> .....	1
insulin resistance and fatty acids in hereditary hypertriglyceridemic rats .....	135
thyroid autoimmunity and type 1 DM in children, abstract .....	179
type 2 diabetes in children <15 years in Austria, abstract .....	186
MODY - HNF-1a regulation of HNF-4a expression, abstract .....	187
inherited DM in patients with mtDNA mutation A3243G .....	188

**DIET**

fish oil diet and insulin resistance .....	135
--	-----

**ENDOTHELIN**

in provoked inhibition of progesterone secretion from granulomatous cells .....	19
new views on, minireview .....	151

**ESTROGENS**

in human semen, review .....	81
------------------------------	----

**FATTY ACIDS**

dyslipidemia and insulin resistance in <i>Psammomys obesus</i> .....	1
and insulin resistance in hereditary hypertriglyceridemic rats .....	135

**GHRELIN**

circadian secretion pattern from 24-h fasting subjects, abstract .....	169
--	-----

**GLUCOSE**

glucose tolerance tests, insulin sensitivity and overweight .....	73
---	----

**GONADS**

hypothalamic-pituitary-gonadal axis in rheumatic diseases, review .....	95
---	----

**GROWTH HORMONE**

circadian rhythm after sleep deprivation .....	63
in rheumatic diseases, review .....	95
ghrelin circadian secretion in fasting subjects .....	151
growth in children with idiopathic growth hormone deficiency, abstract .....	170
thyroid disorders in GH deficient patients on rGH treatment, abstract .....	172
deficiency: case report , abstract .....	154
excess in McCune-Albright syndrome:case report, abstract .....	173

**HYPOTHALAMIC-PITUITARY-GONADAL AXIS**

in rheumatic diseases, review .....	95
-------------------------------------	----

**IGF**

changes in ovariectomized rats: model of osteoporosis .....	9
---	---

**INSULIN**

insulin sensitivity and body composition .....	73
--	----

**LIPIDS**

dyslipidemia and insulin resistance in <i>Psammomys obesus</i> .....	1
insulin sensitivity and body composition .....	73
screening of congenital hypercholesterolemia in Slovenia, abstract .....	185

---

high-fat diet induced insulin resistance and linoleic acid feeding .....	135
<b>MENOPAUSE</b>	
adrenal androgens regulation, review .....	95
<b>METABOLIC SYNDROME</b>	
dyslipidemia and insulin resistance in <i>Psammomys obesus</i> .....	1
<b>MULTIPLE ENDOCRINE HYPERPLASIA</b>	
<i>ret</i> gene mutation associated in MEN 2a , abstract .....	175
<b>OBITUARY</b>	
Monte and Peggy Greer, tragic motor vehicle accident .....	61
<b>OSTEOPOROSIS</b>	
Changes of IGF-I in ovariectomized old rats .....	9
<b>OVARY</b>	
granulosa cells: progesterone release after endothelin .....	19
<b>OXYTOCIN</b>	
mRNA detection in paraventricular nucleus of hypertonic saline injected rats .....	23
<b>PITUITARY</b>	
hypothalamic-pituitary system in rheumatic diseases, review .....	95
<b>PREGNANCY</b>	
pregnancy and rheumatic diseases, review .....	95
<b>PROLACTIN</b>	
prolactin and rheumatic diseases, review .....	95
<b>RECEPTORS</b>	
EGF receptor, minireview .....	87
<b>RETINOIDS</b>	
determination by HPLC .....	155
<b>REVIEW</b>	
transglutaminases and endocrine system .....	31
hormone nuclear receptors: role in apoptosis .....	37
EGF receptor , structure and activation .....	87
neuroendocrine system in rheumatic diseases .....	95
endothelin, new views .....	143

**SEPTO-OPTIC DYSPLASIA**

endocrine functions, Mid-European multicenter study, abstract .....	182
---	-----

**SLEEP DEPRIVATION**

cortisol and growth hormone circadian rhythm after .....	63
--	----

**SPERMATOGENESIS**

inhibition after methylene sulphonate treatment .....	123
---	-----

**STEROIDS**

granulomatosa cells: progesterone secretion after endothelin .....	19
androgens, estrogens, progesterone and corticoids in human semen .....	81

**TESTES**

antispermatogenic effects of methylene sulphonate in wild rats .....	123
--	-----

**THYROID**

subclinical hypothyroidism: changes of cognitive processes .....	115
thyroid disorders in GH deficient patients on rGH treatment, abstract .....	172
congenital hypothyroidism in Slovakia – results of national screening, abstract .....	175
povidone-iodine and thyroid function in pediatric cardiosurgical patients, abstract .....	176
thyroid volumes in children from Czech Republic, abstract .....	177
experience TRAb determination in Graves' disease, abstract .....	177
radioiodine treatment in children and adolescents, abstract .....	178
follicular adenoma of thyroid, abstract .....	179
thyroid autoimmunity and type 1 diabetes in children, abstract .....	179

**THYROXINE**

treatment of subclinical hypothyroidism .....	115
thyroid hormones and retinoic acid nuclear receptors, abstract .....	174

**TURNER'S SYNDROME**

final height in Turner syndrome: ten years after, abstract .....	171
--	-----
