

SUBJECT INDEX

ABSTRACTS (Workshop of Pediatric Endocrinology)

- autoimmune polyglandular syndrome type 1 206
- nephrogenic diabetes insipidus, hydrochlorothiazide
and amiloride treatment in children 206
- serum melatonin and urinary 6-hydroxy-melatonin 207
- congenital adrenal hyperplasia, polycentric data bank 208
- IGF-1 in Turner syndrome, GH treatment 209
- isohormonal treatment of autoimmune thyroiditis 210
- slowly growing children treated with anabolic steroid 210
- case of craniopharyngioma 211
- gastrointestinal disease, delayed growth and puberty 212
- molecular diagnosis of Prader-Willi syndrome 212
- thyroid carcinoma in 9 year old girl (case report). 214
- congenital chloride diarrhea, diagnosis and treatment. 214
- a case of salt-wasting syndrome. 213
- IDDM associated Turner syndrome 205

ADRENALS

- IL-1 β , effect on hypothalamus-pituitary adrenal axis in rats 77
- synthesis of sex hormones in adrenals, effect of LH 1
- steroid dependent asthma, adrenal cortex failure. 99

AGING

- thyroid function and aging in rats, effect of diet. 183

ANDROGENS

- circadian variations in obese women 169

AQUAPORIN-2

- specific radioimmunoassay in rat tissues. 141

BONE

- bone formation in obese women 177

CIRCADIAN VARIATION

- of androgens in obese women 169

DIABETES

- new oral hypoglycemic agent, in rats 115
- hereditary insulin resistant rats. 115
- NIDDM patients, plasma ANF after glibornuride 27

DIET

- effect of diet on thyroid function in aging rats 183

DOPAMINE

- dopamine transporter in rat tissues 71

EGF

- thymidine kinase in thyroid in vitro, effect of EGF 9

FLUORINE

- long-term effect on the thyroid in mice 63

GH RELEASING PEPTIDE

- effect on GH and IGF-1 secretion in rats 17

GLUCOCORTICOIDS

- peripheral resistance to, minireview 51
- steroid dependent asthma, adrenal cortex failure 99

GLUCOSE

- metabolism after oral hypoglycemic agent, in rats 115

GONADOTROPINS

- synthesis of sex hormones in adrenals, effect of LH 1

GnRH

- release into cerebral ventricular fluid, orchidectomy and
sex steroid effect 145

GONADS

- acrosomal component of rat spermatids, novel monoclonal
antibody. 154

GROWTH HORMONE

- secretion in aged rats, effect of hexarelin and GHRP-6 17

HYPOGLYCEMIC AGENTS

- glibornuride in NIDDM patients, effect on serum ANF 27
- new oral hypoglycemic agent, in rats 115

IGF-1

- secretion in aged rats, effect of hexarelin and GHRP-6 17

INSULIN

- levels after new oral hypoglycemic agent, in rats 115

INTERLEUKINS

- IL-1 β , effect on hypothalamus-pituitary adrenal axis in rats 77

IODINE

- long-term effect on the thyroid in mice 63

NORADRENALINE

- vascular responsiveness in rats, altered after glutamate treatment
..... 133

OBESITY

- bone metabolism in obese women 177
- circadian variations of androgen levels in obese women ... 169

OVARY

- synthesis in porcine granulosa cells, effect of relaxin 33
 preovulatory changes in rat ovarian follicles 43
 progesterone and testosterone in ovary, effect of T3 93

PARATHYROID HORMONE

- levels in extremely obese women 177

PITUITARY

- effect of IL-1 β on pituitary-adrenal axis in rats 77

POLYCHLORINATED BIPHENYLS

- and the thyroid gland, minireview 193

PROGESTERONE

- metabolites in rats, gas chromatography 125

PROLACTIN

- response to mild stressor in rats 159

RADIOIMMUNOASSAY

- of aquaporin in rats tissues, method 141

RELAXIN

- effect on steroid synthesis in granulosa cells.33

REVIEW

- peripheral glucocorticoid resistance 51
 characteristics of review of scientific papers 107
 polychlorinated biphenyls and the thyroid gland 193

SUBSTANCE P

- release into cerebral ventricular fluid, orchidectomy and sex ..
 steroid effect 145

SEROTONIN

- vascular responsiveness in rats, altered after glutamate treatment 133

SPERMATIDS

- acrosomal component, novel monoclonal antibody 154

STEROIDS

- progesterone metabolites in rats. 125
 sex steroid effect on GnRH and Substance P release. 145
 sex steroid synthesis in adrenals, effect of LH 1
 synthesis in porcine granulosa cells, effect of relaxin 33
 preovulatory changes in rat ovarian follicles 43
 peripheral glucocorticoid resistance, minireview 51
 allopregnanolone in premenstrual syndrome 87
 progesterone and testosterone in ovary, effect of T3 93
 steroid dependent asthma, adrenal cortex failure. 99

STRESS

- prolactin response to mild stressor in rats. 159

THYMIDINE KINASE

- in thyroid homogenates, effect of EGF 9

THYROID, THYROID HORMONES

- thymidine kinase in homogenates, effect of EGF 9
 long-term iodine and fluorine effects in mice 63
 allopregnanolone in patients after thyroidectomy 87
 effect of T3 on steroids in rat ovary 93
 and polychlorinated biphenyls, minireview 193
 significance of thyroid biopsy before thyroid surgery. 187
 thyroid function in aging rats, influence of diet 183
