SUBJECT INDEX

ANDROGENS

response to seasonal stimulation in fish 125

ATRIAL NATRIURETIC FACTOR (ANF)

in rat testes, potential role in regulating gonadal function 183

BROMOCRYPTINE

and pineal structure of kuwaiti desert gerbil 69

CALCIUM

calcium sensing receptor - distribution in rats 55

CATECHOLAMINES

changes in plasma levels and gene expression of key enzymes after partial hepatectomy in rats 145

CHORIONIC GONADOTROPIN

effect on endorphine release from luteal cells 117

CHROMOGRANIN A

in gastric mucosa of patients with chronic gastritis 79

CORTICOSTERONE, GLUCOCORTICOIDS

postnatal monosodium glutamate treatment and corticosterone metabolism in adult rats 61
glucocorticoid receptors in B16 melanoma cells 109
changes in plasma levels and gene expression of key enzymes after partial hepatectomy in rats 145

DIABETES

susceptibility in neonatally insulin treated adult rats 25

EGF

and thymidine kinase in rat thyroid lobes in vitro 17

ENDORPHINE

in large luteal cells of pig, effect of hCG and TNF α 117

ESTRADIOL

response to seasonal stimulation in fish 125

GROWTH HORMONE

lymphocyte subsets in renal transplant recipients treated by GH 3

MILK

iodine in human milk 9

INSULIN

neonatal treatment with and diabetes susceptibility in adults .. 25
defect of phosphatidylinositol 3-kinase activation by 49
hereditary insulin-resistant rats 49

IODINE

in urine and human milk in iodine replete mothers 9

LUTEINIZING HORMONE

genetic variant of, in Czech Republic 103

LYMPHOCYTES

subsets in renal transplant recipients treated by GH 3

OCTREOTIDE

effect on thyrotropin secreting adenoma, report on two cases . 175

OVARY

production of progesterone inhibitory activity in
granulosa cells 33
progesterone secretion inhibitory activity 90
hormonal response to seasonal stimulation in fish 125
large luteal cells, source of beta-endorphine 117
effect of triiodothyronine on 3 β -hydroxysteroid
dehydrogenase in corpus luteum 155
effect of substance P on ovulation control 161
steroidogenesis in rat ovarian follicle, 40 kDa protein 175

OVERWEIGHT

and diabetes susceptibility in rats 25

POSTNATAL TREATMENT

with monosodium glutamate and corticosterone metabolim 61
with insulin and diabetes susceptibility 25

PINEAL GLAND

structure in the kuwaiti desert gerbil, bromocryptine treatment 69

PROGESTERONE

inhibitory activity produced by porcine granulosa cells 33
secretion inhibitory activity (minireview) 90
response to seasonal stimulation in fish 125

RECEPTORS

calcium sensing receptor – distribution in rats 55
mutations of TSH receptor gene from thyroid nodules 95
glucocorticoid r. in B16 mouse melanoma cells 109
TRH receptor type 2: distribution in rats 135

RENAL TRANSPLANT

and lymphocyte subsets in recipients treated by GH 3

REVIEW

discussion about normal thyroid and goitre (minireview) 39
progesterone secretion inhibitory activity 90
octreotide and thyrotropin secreting pituitary adenoma 175

SEROTONIN

in gastric mucosa of patients with chronic gastritis 79

SOMATOSTATIN

in gastric mucosa of patients with chronic gastritis 79

STEROIDS (see also CORTICOSTERONE, PROGESTERONE)

effect of triiodothyronine on 3 β -hydroxysteroid
dehydrogenase in corpus luteum 155

SUBSTANCE P

role of substance P in ovulation control 161

TESTES

ANF in rat testes after Leydig cells destruction 183

THYMIDINE KINASE

in euthyroid, hypo- and hyperthyroid rat thyroid lobes 17

THYROID, THYROID HORMONE

volume, urinary and milk iodine in mothers and newborns 9
thymidine kinase in rat thyroid lobes, effect of EGF 17
discussion about normal thyroid and goitre (minireview) 39
male and female thyroid 39
biliary triiodothyronine after glucose and arginine 83
mutations of TSH receptor gene from thyroid nodules 95
surgery: peroperative fine needle cytology vs. frozen sections
effect of triiodothyronine on 3 β -hydroxysteroid 141
dehydrogenase in corpus luteum 155

THYROTROPIN (TSH)

mutations of TSH receptor gene from thyroid nodules 95
thyrotropin secreting adenoma, report on two cases 175

TRH

TRH receptor type 2: distribution in rats 135
