

Dear Madam/Sir,

It is with great pleasure that I am writing to you on behalf of the Science Fund of the Republic of Serbia.

The Science Fund of the Republic of Serbia is a public organization, established in January 2019, with the aim of providing funding and creating an enabling environment for the continuous development of scientific and research activities in the Republic of Serbia.

The programs of the Science Fund will support research projects that are based on scientific excellence, creating high impact, and providing competitiveness and relevance at the international level and inclusion in the global scientific trends.

In order to ensure an objective, high-quality reviewing process, we have published a Call for Expressions of Interest of the Project Peer Reviewers (<http://fondzanauku.gov.rs/call-for-expressions-of-interest-of-the-project-peer-reviewers/>).

We would kindly ask for your assistance in this process. We would appreciate it if you could share this Call through your communication channels and recommend this Call to individual experts and reviewers.

The aim of this Call is to set up a list of external international experts – Peer Reviewers for the review of Project Proposals that will be submitted to the Science Fund of the Republic of Serbia.

Details of the Call, including inclusion and assessment criteria, ToR and fees are provided on our [website](#), as well as the Registration Form. The project proposals and evaluations will be written in English.

Interested candidates are invited to send a filled-in Registration Form and their CVs in the English language to the following email address: [experts@sciencefund.gov.rs](mailto:experts@sciencefund.gov.rs), by 00:00 CET on Friday, 23.08.2019.

We are hoping for your positive response and looking forward to our future collaboration.

Best regards,

Dr Milica Đurić-Jovičić

Acting Director

Science Fund of the Republic of Serbia
