

PASIFIC

Polish Academy of Sciences' Individual Fellowships: Innovation & Creativity

The PASIFIC is open to researchers of any nationality from across **all scientific disciplines**. You have the freedom to choose a Host Institute, scientific supervisor, and secondment organizations best suited to your individual research and career development.

We offer attractive **2-year fellowships** at one of the Polish Academy of Sciences (PAS) institutes.

Why apply?

- the chance to benefit from comprehensive mentoring and training, providing a variety of developmental opportunities
- expert supervision of your individual research project and the chance to build a Career Development Plan defining long-term goals and research directions
- access to numerous training sessions and workshops on such issues as funding opportunities in Poland and Europe
- the possibility of spending up to 6 months in the non-academic sector or short visits to research and non-academic organizations worldwide

Who can apply?

- researchers of any nationality
- researchers representing all scientific disciplines
- researchers with PhD or at least 4 years of Full-Time Equivalent research experience
- researchers who have not resided or carried out their main activity in Poland for more than a year out of three years before the call's deadline

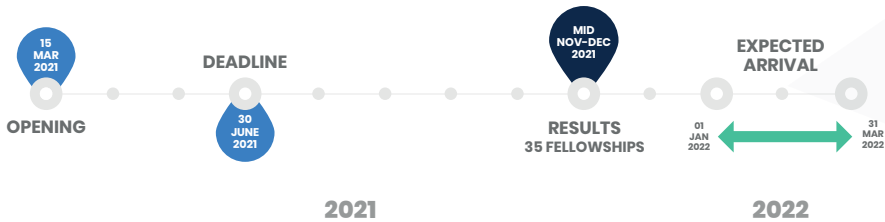

This project has received funding from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 849639.

Maria Skłodowska-Curie Actions

Up to 50 Fellows will be recruited in two calls:

FIRST CALL

SECOND CALL

How to apply?

Before applying, you need to identify the suitable PAS institute and a prospective supervisor who will commit to support your research. Please find more information on the website: **pasific.pan.pl**

In cooperation with a prospective supervisor and Host Institute you should prepare an application to be submitted to the online system.

It will include an online administrative form and the following attachments:

- CV and a scientific track record
- description of the research project (max. 10 pages)
- supervisor's CV and description of the Institute's environment (to be prepared together with representatives of the Institute)
- ethics self-assessment (if necessary)
- scanned PhD diploma or documents confirming the equivalent 4-year research experience
- scanned letter confirming support from your prospective supervisor and Host Institution

As a PASIFIC Fellow you will receive monthly allowance of approx. €2,500 net plus the additional research budget of up to €93,000 per project.
