FELLOWSHIP FOR RESEARCH IN JAPAN 2008

JSPS provides an array of fellowship programs to invite researchers to Japan at each of their career stages — Ph.D. students or postdoctoral through senior researchers. You may choose the program that best fits for your career level and research plan.

SHORT-TERM FELLOWSHIP

for Pre/Postdoctoral Researchers
from North America and Europe

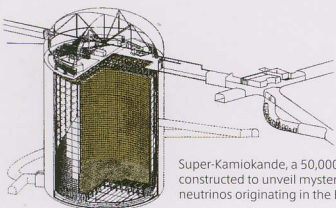

POSTDOCTORAL FELLOWSHIP

for Young Researchers

INVITATION FELLOWSHIP

for Mid-Career and Senior Researchers

Super-Kamiokande, a 50,000-ton water Cherenkov detector constructed to unveil mysteries of the universe by observing neutrinos originating in the Earth's atmosphere and outer space.
