Canon

RESEARCH FELLOWSHIPS TO JAPAN

Dear Sir/Madam,

The Canon Foundation in Europe offers Research Fellowships to highly qualified European and Japanese researchers holding a doctorate or at least a Master's degree regardless of discipline. They are eligible during the ten-year period following the successful completion of their Ph.D or MA degree. Extensions to the ten-year rule are possible in principle in case of exceptional circumstances. This should be clarified in the application and documents supporting this should be enclosed. Non-nationals have to have a permanent citizenship in either Europe or Japan

European Fellowship holders pursue their research period in Japan and Japanese do their research period in Europe. The Fellowships are awarded for periods of minimum three months and maximum one year. Financial support for Fellows ranges between 22,500 to 27,500 Euros per year and pro-rata for different periods.

Application forms can be obtained from the Secretariat or the Canon Foundation website. On completion, they should be returned to the Secretariat at the above-mentioned address before 15 September – the closing date. Please note all correspondence and applications should be made in English!

We enclose some posters and ask you to distribute them throughout your organisation. Extra material can be obtained from our office. You are also welcome to make a link to our website and should you do so, please let us know. Should you not be the appropriate person to spread this information, please also inform us.

Yours sincerely,

Corrie Siahaya-Van Nierop

Mrs. Corrie Siahaya-Van Nierop
