TATRA MOUNTAINS

Mathematical Publications

TATRA MOUNTAINS Mathematical Publications publishes original contributions in all fields of mathematical research, especially collections of papers on single topic.

In the case of your interest in publishing common volume on single topic, please, contact the editors of the journal.

The journal is reviewed, abstracted and indexed in Zentralblatt MATH, Mathematical Reviews, Referativnyi Zhurnal Matematika, Current Contents (ISI, individually as books or proceedings volumes), Web of Science, ISI Conference Proceedings Citation Index (CPCI) and in Scopus.

Honorary Editors

Beloslav Riečan and Miloslav Duchoň

Manuscript Submission

To submit a paper Pdf file should be addressed via e-mail to the editors of the volume. Volumes of our journal are prepared by \TeX using \LaTeX . All papers are refereed. When a paper is accepted we appreciate sending us the final version of your paper in \LaTeX with a short abstract summarizing the article, the 2010 Mathematics Subject Classification (www.zentralblatt-math.org/msc/en) and a list of key words and phrases. Bibliography should be worked out using BibTeX. For journal abbreviation used in bibliographies, see the list “Abbreviations of names of serials” given in the latest Mathematical Reviews Annual Index or at www.ams.org/msnhtml/serials.pdf. Figures in articles should be prepared with \TeX packages or included as EPS files or bitmaps in a high resolution. Legends for graphics should be written by using free-available fonts, e.g., \TeX -fonts; colours should be in black/white, grey-scale or CMYK palette. Full current addresses and e-mail addresses of authors should be included in articles, too.

Subscription Information Since 1996 three or more issues are to be published each year. The price for Volumes 1–6, 20–25, 27, 29–33, 35–37, 40–48, 51–54, 56, 58, 61–67, 70–81 is € 35 per volume, Volumes 7, 8, 10–17, 19, 26, 28, 34, 38 and 39 is € 45, Volumes 9, 18, 49, 50, 55, 57, 59–60, 68, 69 is € 25, postage included.

Due to the free availability of the journal, offprints and printed issues of the journal are not distributed to authors.

Full texts of Volumes 1–81 are free available on <https://tatra.mat.savba.sk>

Full texts of Volumes 42–81 are free available on <https://content.sciendo.com/view/journals/ttmp/ttmp-overview.xml>

VOL. 81

2022

Real Functions

SERBENYUK, S. : Some fractal properties of sets having the Moran structure	1
LUTHRA, S.—CHAUHAN, H. V. S.—TYAGI, B. K. : Selective version of star-semi-Lindelöfness in (a) topological spaces	39
KUMAR, G.—TYAGI, B. K. : Remarks on semi-Menger and star semi-Menger spaces ..	57
SARIKAYA, M. Z. : On the generalized inequalities for co-ordinated convex functions ...	69
SENTHIL KUMAR, B. V.—RASSIAS, J. M.—IDIR, S.—SABARINATHAN, S. : Stabilities and non-stabilities of a new reciprocal functional equation	81
WILCZYŃSKI, W. : Remark on a theorem of Tonelli	89
ZUO, H.—LI, Y. : Some inequalities involving interpolations between arithmetic and geometric mean	93
RAKHIMI, L.—DAHER, R. : Modulus of smoothness and K-functionals constructed by generalized Laguerre-Bessel operator	107

Dynamical Systems

BACHIR, F. S.—ABBAS, S.—BENBACHIR, M.—BENCHOHRA, M. : Successive approximations for Caputo-Fabrizio fractional differential equations	117
BENTERKI, R.—BELFAR, A. : Global phase portraits of quadratic polynomial differential systems having as solution some classical planar algebraic curves of degree 6	129
HUSSEIN, S.—SALHI, T.—HUANG, B. : Integrability and non-existence of periodic orbits for a class of Kolmogorov systems	145

Applied Mathematics

MOGHADDAM, S. F.—MIRMOSTAFAE, A. K. : Numerical radius of bounded operators with ℓ^p -norm	155
FATHIMA, D.—GANIE, A. H. : On some properties of difference operator with some characterizations	165
