

## CURRICULUM VITAE

I was born on September 7-th, 1942 in Slavnica (Slovak Republic). The elementary school and the high school I have graduated at my birth-place. The university study I finished in Bratislava in 1966.

In 1967 I was starting to work at the Institute of Physics of the Slovak Academy of Sciences in Bratislava on the phenomenology of particle physics.

The period from the July 1971 until 1976 I spent at the JINR Dubna (Russia), where at the beginning of the year 1975 I defended a scientific degree 'Candidate of phys.-math. sciences (PhD.)'

In autumn of 1976 I spent one month and at the end of 1977 two months in the ICTP Trieste (Italy).

Every second year I was working for 3 months at the JINR in Dubna.

In 1987 I was working 1 month at the LNF INFN in Frascati. In the years 1988/89 I was taking part at the research work in Frascati for 6 months on the problems of the electromagnetic structure of hadrons and related problems. On the base of achieved results I was joined to the DAΦNE physics research group and in 1991 I spent again 1 month in Frascati working in collaboration on radiative corrections at DAΦNE.

Meanwhile in 1989 I was elected by the Scientific Committee to be a vice-director and from the June 1992 up to the January 1993 the active director of the Laboratory of Theoretical Physics of the JINR in Dubna. In 1989 in Dubna I defended a scientific degree 'Doctor of Sciences (Professor)'

In the years 1994,1995,1998,1999 I spent one month and in the year 1996 6 weeks in the ICTP Trieste.

Nowadays I am working at the Institute of Physics of the Slovak Academy of Sciences and simultaneously I am Plenipotentiary of the Government of the Slovak Republic at the JINR in Dubna.

I have published 170 scientific papers till now.

I am married and we have one 38 years old daughter.

Stanislav Dubnicka
